Management System

**The Sweet Spot.
British design ingenuity
and UAE manufacturing
excellence**

The Desk comes complete with **fully integrated brackets capable of supporting monitors** which can be easily adjusted to suit the operators.

Modular Desk with two to four monitors per user.

The Desk has been **designed with heat dissipation in mind and has multiple air vents**.

Work surfaces are HPL panels with optional perimeter rubber edge lipping all around.

Optional height-adjustable table tops for added comfort.

The Desk contains **secure housing for all workstations and can house 2 CPUs.**

Swing-out computer CPU shelving.

Main frame and sub-sections are **constructed out of mild steel tubular and sheet plates**, powder coated to a textured matt finish. Work surfaces are HPL panels with perimeter rubber edge lipping all around.

The Desk contains an **integrated cable management system** separating the power and signal cables in separate ducts.

The Desk is **constructed in a modular fashion** to allow for quick on-site assembly.

Add-On Feature

Make it yours - add features, accessorise and customise!

Create a console that works the way you do.

Wireless Charging

Our desk can be fitted with a built-in wireless charging pad, making it easy to charge smartphones quickly and without cables. Operators can power up effortlessly while keeping the workspace clean and clutter-free.

Reading Lights

Reading lights give operators focused illumination for screens, documents or controls, helping them work comfortably without eye strain, especially in low-light or night-time operations.

Headset Holders

By providing a dedicated place for headsets, these holders keep workspaces tidy and prevent equipment from getting tangled or misplaced. This accessibility ensures that operators can quickly grab their headsets when needed, facilitating swift and seamless communication.

Cup Holders

Built-in cup holders keep drinks close at hand while keeping the workspace neat.

Slat Walls

Slat walls make it easy to adjust monitors for the most comfortable viewing setup, helping operators stay ergonomic through long shifts.

Privacy Panels

Custom modesty/privacy panels give operators a sense of comfort, privacy, and confidence during long shifts, allowing them to do their best work with ease.

24/7 Lighting

We have partnered with **Medilux** to integrate 24/7 circadian lighting across all our consoles, an optional feature designed to enhance operator wellbeing, focus, and long-term efficiency.

Medilux

Our Certification

Warranty

Our trading desk come with a 10-year warranty on all metal parts, a 5-year warranty on HPL tabletops, 2-year warranty on all electronic components with hands-on after-service support with next-day rectification of issues for UAE-based projects supported by over-the-phone technical support whenever

Antibacterial Table Top

CTF's high-pressure laminate (HPL) tabletops are rigorously tested for antibacterial activity using the JIS Z 2801:2010 standard. Results confirm a 99.99% reduction of harmful bacteria like Staphylococcus aureus, Escherichia coli, and Pseudomonas aeruginosa.

Fire Retardation Certification

CTF's high-pressure laminate (HPL) tabletops are certified for fire retardation as per EN 438-4:2016 standards. The material meets flame retardant specifications, ensuring added safety and reliability in critical environments.

CTF Product Warranty:

2-year warranty
on all electronic
components

5-year warranty
on HPL tabletops

10-year warranty
on all metal parts
