

K CLASS CONSOLE

CONNECTED TECHNICAL FURNITURE

www.ctfconsoles.com

The K-Class, or Kingdom Class, has been developed for high-end command and control rooms utilizing KVM infrastructure. It combines an open design with sit/stand functionality for optimal flexibility.

The result of 8 years of research and development by the CTF team, the K-Class features a sleek and ergonomic design, representing the future of both control room and gaming furniture.

MATERIALS

Powder coated mild steel and HPL

FINISH

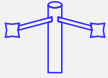

Powder Coated

GENERAL DIMENSION

1.6W x 0.9m D x ± 0.75 m H | Single Operator Console

FEATURES

Scalable straight configuration modular security desk consoles fitted with **height adjustable 2-monitor tilt-swivel & swing desktop monitor brackets** for up to 24" size monitors on standard VESA mount fittings.

Ideal for KVM Setups.

Adequately provisioned ventilation slots within equipment compartment panels allow for a more homogenous natural ventilation effect on air distribution flow within the internal equipment compartment.

Optional height adjustable table tops for added comfort

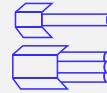

The Console has a discreet channel duct which allows for easy cable access.

Integrated under-the-table equipment cabinet provides a secure storage compartment for computer workstations and vital control equipment from within the desk console unit.

Main frame and sub sections are **constructed out of mild steel tubular and sheet plates**, powder coated to a textured matt finish. Work surfaces are HPL panels with perimeter rubber edge lipping all around.

Built-in slotted cable management system within main frame carcass and rear top panel. Removable bottom access panels for direct wire feed-thru from external raised floor cable access points. Compartmentalized raceway runs for separate power and signal cable runs.

Pre-engineered modular construction design, flat-pack profile for complete bolt-on assembly at site.

**Locally designed and manufactured in
Dubai using materials of the highest
quality and the latest machinery.**
